

I can no longer handle Sprint's telephone service! I have them for my home, and business at my home. I have neighbors accross the street from me that can get phone service through Quest! I want phone service with quest, but I can't Sprint is my only option!!!! I don't want Sprint as my phone provider My bill is nearly double that of my neighbors accross the street. When I inquire about different charges on my bill Sprint gets rude with me, and they start laughing and tell me to cancel my service then! I no longer want to be gauged by them, laughed at and ridiculed by them! Why can't I get service from another provider?
